CODING CLUB

ESSENTIAL SKILLS FOR YOUR FUTURE

"
Every child born this century should learn to code!

- Bill Gates

LIMITED PLACES

Innovation Pod will be running its award-winning Coding Club at Cawston Grange

YEARS 1-6 - WEDNESDAY

KS1 Coding

In our first module, "Coding 101" the children will learn the fundamental coding skills of sequences, loops, events and conditionals as they code some of their favourite Disney characters in exciting games. After half term, our popular "Coding with Foos" module is a fun way to learn about loops and events. Children create their own games and battle through 'Monstrous' problems.

KS2 Coding

In our first module "Coding 101 KS2", the children practise each of the coding competences by completing progressively challenging tasks. After half term, our 'Minecraft Coding' module takes the ever popular Minecraft platform as an inspiration to teach children how to design and code.

Clubs will resume on w/c 15th of September

Sign up for our clubs at www.innovationpod.co.uk/signup. It's £7 per session which is paid via the one off direct debit. All clubs take place in school premises.
